ABSTRACT

Student Information System can be used by education institutes to maintain the records of student, teachers easily. Achieving this objective is difficult using a manual system as the information may be very time consuming. All these problems are solved using this project. Student Information System have basically two user the first one is admin who can add teacher. Admin can view all the staffs and student related information and admin have right to make change in it or can add the student information. Second one is teacher have permission to add their own profile, add student, set exam time table, and view student marks, and many more. That's all about the abstract of student Information System.

ACKNOWLEDGMENT

I have taken efforts in this project. However, it would not have been possible without the kind support and help of many individuals and organization. I would like to extend my sincere thanks to all of them. I am highly indebted to **Dr.Gopal Krishna Sharma** for their guidance and constant supervision as well as for providing necessary information regarding the project & also for their support in completing the project.

 I would like to express my gratitude towards my parents & member of **Dev Sanskriti Vishwavidyalaya University** for their kind co-operation and encouragement which help me in completion of this project. My thanks and appreciations also go to my colleague in developing the project and people who have willingly helped me out with their abilities.
